NEW RELEASES OUT NOW

SOCIAL MEDIA AND YOUNG PEOPLE

Volume 415 Edited by Justin Healey

print ISBN: 978 1 925339 30 7

ebook ISBN: 978 1 925339 31 4

Social media has revolutionised how most of us communicate; no one more so than teenagers and young adults, who spend on average 2-3 hours a day connected to social media sites. Online social networking provides young people with a range of

positive opportunities to maintain social connections and share emotional support, learning and an almost infinite array of interests. However, social media use can also have negative impacts, such as excessive use, social isolation, loss of privacy, cyberbullying, anxiety and self-esteem pressures. This book examines the prevalence of social media use by young Australians, and explores its impacts on their wellbeing. The book also offers helpful tips on appropriate ways of using and staying safe on social media sites. How do young, developing digital natives get the balance right when so much of their lives is being lived online?

DEFENDING AUSTRALIA

Volume 416 Edited by Justin Healey

print ISBN: 978 1 925339 32 1

ebook ISBN: 978 1 925339 33 8

Australia is in the process of updating and strengthening its defence capabilities against potential armed attacks. The latest government white paper has outlined a massive increase in military spending and confirmed the direction of Australia's defence policy and strategy. This book

examines the operational priorities and capabilities of the Australian army, navy and airforce as well as exploring the nation's planned strategic direction. Topics also include Australia's defence history, current war operations and peacekeeping contributions around the globe, the inclusion of more women in the Australian Defence Force, and the plight of returned veterans. A key focus of the book is the nation's increased defence budget and upgrading of capabilities such as new submarines, frigates and fighter aircraft, at a time when Australia must adapt to a complex strategic and diplomatic environment which is dominated by long-term major ally the United States and the emerging military might of China in the Asia-Pacific region. When should Australians take up arms, and what are the costs and consequences of war? Are Australia's strategic defence policies, capabilities and alliances enough to protect the nation from attack?

SUGAR CONSUMPTION

Volume 417 Edited by Justin Healey

print ISBN: 978 1 925339 34 5

ebook ISBN: 978 1 925339 35 2

Sugar has become ubiquitous in our modern diet in a variety of forms, and is most notably present in popular processed foods and sugary drinks. This title explains the latest consumption guidelines and data, detailing the amount of sugar added to common food and beverage items, the excessive

consumption of which can lead to serious health conditions such as obesity, diabetes, tooth decay and heart disease. The book offers helpful advice on reducing unhealthy sugar intake through personal dietary behaviours such as how to identify sugars on food labels; it also presents perspectives in the ongoing debate over government policy approaches including a proposed sugar tax. How much sugar is it OK to eat, what are its health impacts, and how can we manage its consumption? Excessive sweetness has unsavoury consequences – how are you watching your sugar intake?

VIOLENCE AGAINST WOMEN

Volume 418 Edited by Justin Healey

print ISBN: 978 1 925339 36 9

ebook ISBN: 978 1 925339 37 6

Violence against women is now being recognised as a serious, widespread problem, with enormous social costs and individual and community impacts. In Australia, one in three women over the age of 15 years have experienced physical assault; over half of all women have experienced at least

one incident of physical and/or sexual violence in their lifetime. Men's violence affects women across all sectors of society and includes sexual, emotional, psychological and financial abuse. A wide range of attitudes and beliefs continue to excuse, justify, minimise and hide physical and sexual violence against women. As a society, we need to address these misconceptions and entrenched gender inequality to effectively respond to violence against women and their children, and ultimately to prevent it. This title details the various forms of violence used against women, and presents the latest research findings on prevalence and attitudes. The book also focuses on understanding and countering sexual assault and harassment, and explores the latest approaches to dealing with gender-based violence. Although violence against women is a confronting social problem, it is ultimately preventable.

FIGHTING INFECTIOUS DISEASES

Volume 419 Edited by Justin Healey

print ISBN: 978 1 925339 38 3

ebook ISBN: 978 1 925339 39 0

Infectious, or communicable, diseases are a major global health concern. Managing and preventing the spread of diseases takes a concerted public health effort to deal with deadly outbreaks, epidemics and pandemics. What are the various ways in which infectious diseases are spread? How

much of a threat are emerging infections such as Ebola, SARS and the Zika virus to large populations of people? And how much of a concern is the growth in antimicrobial resistance to drugs, such as antibiotics, which are routinely used to treat infection? The World Health Organization estimates that vaccines prevent 2-3 million deaths every year; how effective has immunisation been in Australia at containing and eradicating vaccine-preventable diseases? What are the myths and facts regarding the safety and effectiveness of vaccines, and why do some misconceptions among immunisation objectors persist? This book reveals the global trends and challenges in the fight against the major types of infectious disease, and looks at vaccine-preventable diseases and immunisation in Australia. Are we doing enough to win the ongoing fight against infectious diseases?

Each title contains quality content which has been edited and compiled from a variety of trusted primary sources:

- Fact sheet information
- Magazine & journal extracts
- Lobby group & NGO literature
- Newspaper reports & features
- Opinion pieces & commentary
- Government reports & statistics
- Survey findings, tables, graphs
- Fast facts, glossary, web links
- Cartoons, illustrations, diagrams, photographs
- Worksheets, activities

UPCOMING RELEASES – July 2017

THE FREE SPEECH DEBATE

Volume 420 Edited by Justin Healey

print ISBN: 978 1 925339 40 6

ebook ISBN: 978 1 925339 41 3

Freedom of expression and tolerance are considered core features of our democracy. Free speech was at the centre of a recent controversial debate in federal politics regarding changes to section 18C of the *Racial Discrimination Act* to remove the words "offend, insult, humiliate" from section

18C, and replace them with the word "harass". The rewording proposed by a number of conservative politicians was voted down by the Senate, but the government emerged with changes to the complaint-handling process by the Australian Human Rights Commission, making it easier to dismiss vexatious complaints and require greater transparency toward defendants. How is free speech justified in Australia, and what laws are in place to protect people from defamation and discrimination such as racial vilification? Which speech deserves special protections; should some speech acts be punished? When does the right to freedom of expression become a right to offend? Is free speech at risk in Australia, or is the balance right?

PEOPLE WITH DISABILITY

Volume 421 Edited by Justin Healey

print ISBN: 978 1 925339 42 0

ebook ISBN: 978 1 925339 43 7

Disability is part of human diversity. There are many different kinds of disability, caused by accidents, illness or genetic disorders. One in five Australians have a disability, however many encounter a range of barriers, stereotypes and negative attitudes. They are more likely to

experience poverty, live in poor quality or insecure housing, suffer from mental illness and have low levels of education. They are often socially isolated, with fewer opportunities to take part in community life. How do people with disabilities live their daily lives, and what levels of care and support are currently available to them? What protections are available to people experiencing discrimination in employment, education, accommodation, and with limited access to services and public places? This book examines disability prevalence and support in Australia, and explores issues involving disability rights and discrimination.

AUSTRALIAN FARMING AND AGRICULTURE

Volume 422 Edited by Justin Healey

print ISBN: 978 1 925339 44 4

ebook ISBN: 978 1 925339 45 1

Agriculture makes an important contribution to all Australian consumers and to the national economy, exporting two thirds of total production. The face of Australian agriculture has changed over the past two centuries as farmers have

developed resilience and adapted to environmental and economic trends. The challenges have been many and varied: changes to land use and farm management practices in response to climate change, water restrictions, farm debt, financial and health pressures on farmers, reliance on seasonal and migrant workers, as well as variable productivity and international competition. This book examines the current state of the agriculture sector and the environmental and economic outlook. What is the future of farming in Australia?

ISSUES IN PRISONS

Volume 423 Edited by Justin Healey

print ISBN: 978 1 925339 46 8

ebook ISBN: 978 1 925339 47 5

Australian imprisonment rates have increased annually for five consecutive years. Why are prison numbers rising, and what are the alternatives to imprisonment? This book examines imprisonment rates and criminal justice reform options. How do the four current prison system justifications – retribution, deterrence, incapacitation and rehabilitation – stack up? Is the incarceration of offenders deterring them from re-offending and reducing crime rates? What are the human and financial costs of imprisonment, especially for detained young people and Indigenous Australians? How can we work towards more effective rehabilitation, crime reduction and justice reinvestment? Is it possible to unlock the prison problem and set it free?

YOUTH MENTAL HEALTH

Volume 424 Edited by Justin Healey

print ISBN: 978 1 925339 48 2

ebook ISBN: 978 1 925339 49 9

Adolescence and young adulthood is a significant transition period in a person's life in many ways. Young people may experience challenges including a range of mental and behavioural disorders, anxiety-related conditions, depression, substance use, self-harm and suicidal behaviours.

What is good mental health, and how can young people be encouraged to seek help if they are struggling? This book looks at the prevalence of mental health problems for young Australians and offers general advice on how to maintain good mental health. Tips include advice for parents and friends on how to help someone with a mood disorder, as well as options for mental health assessment, treatments and therapies for teenagers who are not coping as well as they would like. A key focus of the book is self-harm and suicidal behaviours, revealing the latest approaches to reducing youth suicide. Learn how to watch out for the warning signs, work on your mental wellbeing, and banish the blues.

Have you renewed your annual subscription yet?

SUBSCRIBE

If not, there is still time to renew for 2017 titles at:
www.spinneypress.com.au/subscriptions

Contact The Spinney Press about becoming a new subscriber, or to renew or upgrade your existing *Issues in Society* subscription.

ATTENTION SCHOOLS: why not consider a **Print + Digital Subscription** package. Cover both bases and save ...
... bundle your books now!

Standing Orders for *print* editions are also available from the publisher and library suppliers and educational booksellers around Australia.

DIGITAL EDITIONS FOR SCHOOLS*

Has your school added Digital Editions to its *Issues in Society* collection yet?

DIGITAL EDITIONS are interactive PDFs which are self-managed by school users. Only available from The Spinney Press, from Volume 320 onwards.

Suitable for: School libraries, teachers, students.

Format/software: Interactive PDF using Adobe Reader 7.0+ (Mac, PC, tablets, ipads, interactive whiteboards, data projectors).

Delivery: Download link supplied by email (*note: you have 14 days to initially download the PDFs before the link expires*).

Flexible site licence included: Unlimited copying, printing; you manage the PDF files on your own password-secure network (this includes your school library or learning management system); you may make the PDFs remotely downloadable to students at home.*

Affordable pricing: Only an extra \$5 each when packaged in a Print + Digital Subscription direct from The Spinney Press.

* Check with your own school's IT support staff about how to securely manage Digital Editions on your network, library or learning management system with password access.

BUNDLE AND SAVE!

Only an extra \$5 each when packaged in a Print + Digital Subscription

PRINT + DIGITAL: THE BEST OF BOTH WORLDS

Students and staff can browse the *print* books in their school library, and also download their own *digital* copies in class at the same time or at home for assignments or lesson plans. Contact The Spinney Press to find out how, or visit our E-books web page.

EBOOKS FOR LIBRARY LENDING

ATTENTION: PUBLIC LIBRARIES, TAFE COLLEGES, UNIVERSITIES

Need your ebooks to be on a secure library lending platform?

You can source *Issues in Society* titles (Volume 320 to the latest releases), directly through any of our ebook library partners (see the list below).

Standard platform features apply: lending, copying, printing, read aloud, perpetual access.

ebook partners:

- Axis 360
- BorrowBox
- Copia
- EBL
- ebrary
- EBSCOhost
- OverDrive
- Wheelers ePlatform
