NEW RELEASES – July 2017

THE FREE SPEECH DEBATE

Volume 420 Edited by Justin Healey

print ISBN: 978 1 925339 40 6

ebook ISBN: 978 1 925339 41 3

Freedom of expression and tolerance are considered core features of our democracy. Free speech was at the centre of a recent controversial debate in federal politics regarding proposed changes to the *Racial Discrimination Act* to remove the words "offend, insult, humiliate"

from section 18C, and replace them with the word "harass". The race hate debate is explored in depth through a range of opinions presented in this book. How is free speech justified in Australia, and what laws are in place to protect people from defamation and discrimination such as racial vilification? Which speech deserves special protections; should some speech acts be punished? When does the right to freedom of expression become a right to offend? Is free speech at risk in Australia, or is the balance right?

PEOPLE WITH DISABILITY

Volume 421 Edited by Justin Healey

print ISBN: 978 1 925339 42 0

ebook ISBN: 978 1 925339 43 7

Disability is part of human diversity. There are many different kinds of disability, caused by accidents, illness or genetic disorders. One in five Australians have a disability, however many encounter a range of barriers, stereotypes and negative attitudes. They are more likely to

experience poverty, live in poor quality or insecure housing, suffer from mental illness and have low levels of education. They are often socially isolated, with fewer opportunities to take part in community life. How do people with disabilities live their daily lives, and what levels of care and support are currently available to them? What protections are available to people experiencing discrimination in employment, education, accommodation, and with limited access to services and public places? This book examines disability prevalence and support in Australia, and explores issues involving disability rights and discrimination.

AUSTRALIAN FARMING AND AGRICULTURE

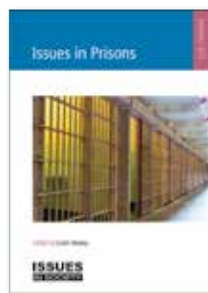

Volume 422 Edited by Justin Healey

print ISBN: 978 1 925339 44 4

ebook ISBN: 978 1 925339 45 1

Agriculture makes an important contribution to all Australian consumers and to the national economy, exporting two-thirds of total production. The face of Australian agriculture has changed over the past two centuries as farmers have

developed resilience and adapted to environmental and economic trends. The challenges have been many and varied: changes to land use and farm management practices in response to climate change, water restrictions, farm debt, financial and health pressures on farmers, reliance on seasonal and migrant workers, as well as variable productivity and international competition. This book examines the current state of the agriculture sector and the environmental and economic outlook. What is the future of farming in Australia?

ISSUES IN PRISONS

Volume 423 Edited by Justin Healey

print ISBN: 978 1 925339 46 8

ebook ISBN: 978 1 925339 47 5

Australian imprisonment rates have increased annually for five consecutive years. Why are prison numbers rising, and what are the alternatives to imprisonment? This book examines imprisonment rates and criminal justice reform options. How do the four current

prison system justifications – retribution, deterrence, incapacitation and rehabilitation – stack up? Is the incarceration of offenders deterring them from re-offending and reducing crime rates? What are the human and financial costs of imprisonment, especially for detained young people and Indigenous Australians? How can we work towards more effective rehabilitation, crime reduction and justice reinvestment? Is it possible to unlock the prison problem and set it free?

YOUTH MENTAL HEALTH

Volume 424 Edited by Justin Healey

print ISBN: 978 1 925339 48 2

ebook ISBN: 978 1 925339 49 9

Adolescence and young adulthood is a significant transition period in a person's life in many ways. Young people may experience challenges including a range of mental and behavioural disorders, anxiety-related conditions, depression, substance use, self-harm and suicidal behaviours.

What is good mental health, and how can young people be encouraged to seek help if they are struggling? This book looks at the prevalence of mental health problems for young Australians and offers general advice on how to maintain good mental health. Tips include advice for parents and friends on how to help someone with a mood disorder, as well as options for mental health assessment, treatments and therapies for teenagers who are not coping as well as they would like. A key focus of the book is self-harm and suicidal behaviours, revealing the latest approaches to reducing youth suicide. Learn how to watch out for the warning signs, work on your mental wellbeing, and banish the blues.

Each title contains quality content which has been edited and compiled from a variety of trusted primary sources:

- Fact sheet information
- Magazine & journal extracts
- Lobby group & NGO literature
- Newspaper reports & features
- Opinion pieces & commentary
- Government reports & statistics
- Survey findings, tables, graphs
- Fast facts, glossary, web links
- Cartoons, illustrations, diagrams, photographs
- Worksheets, activities

SMOKING AND TOBACCO CONTROL

Volume 425 Edited by Justin Healey

print ISBN: 978 1 925339 50 5

ebook ISBN: 978 1 925339 51 2

Tobacco smoking is one of the largest preventable causes of death and disease in Australia. It is associated with an increased risk of a wide range of serious health conditions and is responsible for around 15,000 deaths each year. Although

smoking rates have decreased over the past 15 years, 2.6 million adult Australians still smoke daily. Why do so many people continue to take up such an addictive and deadly habit; what are the ways in which they can quit smoking? The increasing uptake of e-cigarettes is seen by some to help people quit smoking and reduce harm, and by others (including the government) to be an inducement to take up smoking, particularly by young people. How safe is 'vaping' and what are the arguments for and against e-cigarettes? Australia is a world leader in tobacco control, having introduced initiatives such as the banning of advertising, imposing a tobacco excise, and mandating smoke-free environments and plain packaging. Is the fight against Big Tobacco being won? In spite of these interventions, why do so many Australians let their health go up in smoke?

CHILD PROTECTION

Volume 426 Edited by Justin Healey

print ISBN: 978 1 925339 52 9

ebook ISBN: 978 1 925339 53 6

The reported prevalence of child maltreatment – neglect; physical, emotional and sexual abuse; and exposure to family violence – is at unacceptable levels in Australia. The number of children receiving child protection services (investigation, care and protection orders, and out-of-home care)

continues to rise. One in 33 children received child protection services in the past year alone; the majority are repeat clients. Disturbingly, indigenous children are 7 times as likely as non-indigenous children to receive protection services. What is child abuse and neglect and when is a child in need of protection? What are the causes, indicators and impacts of abuse on children and adolescents? When should children at risk be removed from their parents, and is it possible or even preferable to keep vulnerable kids with their families? There is no excuse for child abuse, but are we doing enough to protect children at risk?

BUSHFIRE SAFETY

Volume 427 Edited by Justin Healey

print ISBN: 978 1 925339 54 3

ebook ISBN: 978 1 925339 55 0

Bushfires and grassfires are common events throughout Australia, a land with a hot, dry climate. Every year bushfires occur across Australia, often taking human life and damaging property. Major firestorms such as Ash Wednesday and Black Saturday have left scars on the national

psyche and are stark reminders of the destructive power of bushfires. The impacts of climate change are clear with the emergence of more extreme fire weather in recent years; increasingly, many Australians are exposed to potentially catastrophic bushfires. Understanding bushfires and the risks they pose to whole communities is critical if we are to be resilient to these most common and destructive of natural disasters. This book explores the basics of bushfires, how and where they occur, the threats they pose and the hazards they bring. The book also explains in detail how to effectively prepare your home for a bushfire, and when to safely leave. Future bush fires are expected to get worse. Learn now how to prepare, act and survive.

GUN CONTROL

Volume 428 Edited by Justin Healey

print ISBN: 978 1 925339 56 7

ebook ISBN: 978 1 925339 57 4

Twenty-one years ago, federal, state and territory governments united in the wake of the devastating 1996 Port Arthur massacre to reform firearm laws and ultimately halve gun violence in Australia. The recently updated National Firearms Agreement and renewed firearms amnesty

consolidates this national approach to gun control. However, Australia's arsenal of private guns is now larger than it was before the Port Arthur massacre. There are more imported firearms coming into Australia than ever before; at least 260,000 guns are estimated to be currently held illegally in Australia. Crime, terrorism, homicide, suicide – how much do guns actually figure in this deadly mix? Are we going backwards on gun control? This book explores the ongoing gun debate, including arguments over the proposed importation of the Adler lever-action shotgun and a range of opinions on firearms restrictions from both gun control advocates and the gun lobby. Is gun ownership a right or a privilege?

HUMAN RIGHTS IN AUSTRALIA

Volume 429 Edited by Justin Healey

print ISBN: 978 1 925339 58 1

ebook ISBN: 978 1 925339 59 8

Human rights recognise the inherent value of every person, regardless of our respective backgrounds, where we live, what we look like, what we think or what we believe. These rights are based on universal principles of dignity, equality and mutual respect, and are shared

across cultures, religions and philosophies. Human rights are about being treated fairly, treating others fairly and having the ability to make choices in our daily lives. Australia is currently bidding for a seat on the United Nations Human Rights Council, however its own human rights record is not without controversy. What are Australia's international and domestic human rights obligations and how are they being addressed in relation to a number of high profile issues such as asylum seeker detention, racial discrimination, free speech, indigenous advancement, juvenile incarceration, disability rights, gender equality and same-sex marriage? Does Australia need to lift its game on human rights if it is to be taken seriously on the international stage?

DEALING WITH DEBT AND FINANCIAL STRESS

Volume 430 Edited by Justin Healey

print ISBN: 978 1 925339 60 4

ebook ISBN: 978 1 925339 61 1

To date, Australia has experienced a record 26 years of sustained growth without a recession, however alarm bells are now ringing over the level of Australian household debt which has risen steadily over the past three decades. Are

Australian households on the edge of a debt crisis? Many Australians are struggling to meet their payments for mortgages, investments, personal debt, student debt, and credit card debt. It has been estimated that two million Australians are experiencing high financial stress which prevents them from coping in difficult situations and in the face of unexpected expenses. What is financial stress, and how do factors like housing affordability, higher debts and overspending on low incomes contribute to financial pressure? How does stretching the bottom line affect people's health, relationships and financial security? This book is a helpful guide for young people to understand financial stress and debt, with ample fact sheet-style advice on how to deal with debt, manage money through budgeting and savings, and develop your financial literacy. Make the most of your money and manage debt, before the bank breaks you.

Contact The Spinney Press about becoming a new subscriber, or to renew or upgrade your existing *Issues in Society* subscription.

ATTENTION SCHOOLS: why not consider a **Print + Digital Subscription** package. Cover both bases and save ...
... bundle your books now!

Standing Orders for *print* editions are also available from the publisher and library suppliers and educational booksellers around Australia.

DIGITAL EDITIONS FOR SCHOOLS*

HAS YOUR SCHOOL ADDED DIGITAL EDITIONS TO ITS *ISSUES IN SOCIETY* COLLECTION YET?

DIGITAL EDITIONS are interactive PDFs which are self-managed by school users. Only available from The Spinney Press, from Volume 320 onwards.

Suitable for: School libraries, teachers, students.

Format/software: Interactive PDF using Adobe Reader 7.0+ (Mac, PC, tablets, ipads, interactive whiteboards, data projectors).

Delivery: Download link supplied by email (*note: you have 14 days to initially download the PDFs before the link expires*).

Flexible site licence included: Unlimited copying, printing; you manage the PDF files on your own password-secure network (this includes your school library or learning management system); you may make the PDFs remotely downloadable to students at home.*

Affordable pricing: Only an extra \$7.50 each when packaged in a Print + Digital Subscription direct from The Spinney Press.

* Check with your own school's IT support staff about how to securely manage Digital Editions on your network, library or learning management system with password access.

PRINT + DIGITAL: THE BEST OF BOTH WORLDS

Students and staff can browse the *print* books in their school library, and also download their own *digital* copies in class at the same time or at home for assignments or lesson plans. Contact The Spinney Press to find out how, or visit our E-books web page.

BUNDLE AND SAVE!
Only \$7.50 each if packaged in a Print + Digital Subscription

EBOOKS FOR LIBRARY LENDING

ATTENTION: PUBLIC LIBRARIES, TAFE COLLEGES, UNIVERSITIES

Need your ebooks to be on a secure library lending platform?

You can source *Issues in Society* titles (Volume 320 to the latest releases), directly through any of our ebook library partners (see the list below).

Standard platform features apply: lending, copying, printing, read aloud, perpetual access.

For more information, visit:

www.spinneypress.com.au/books/EditionType/digital

Note: Issues in Society ebooks from library platform partners cannot be bundled with print editions.

Add these essential issues to your library collection

The diversity of topics featured in the latest *Issues in Society* releases is testament to the critical thinking we aim to promote across a broad range of contemporary Australian and global issues.

After 25 years of publishing books on social issues, The Spinney Press team remains passionate in sharing a genuinely held interest and curiosity in our changing society.

These thought-provoking new topics are now available for your library readership to investigate:

JULY RELEASES (Volumes 420-424) now available:

- *The Free Speech Debate*
- *People with Disability*
- *Australian Farming and Agriculture*
- *Issues in Prisons*
- *Youth Mental Health*

SUBSCRIBE or purchase titles individually and on standing order from the publisher and leading educational and library book suppliers.

Changes in 2018 – fewer releases, new pricing

For over a quarter of a century of publishing resource books on social issues, The Spinney Press has consistently produced issues on myriad topics. We plan to continue to do so – in both print and digital – for years to come, but with a change in the number and timing of our releases.

From 2018, six new *Issues in Society* titles will be published twice a year in January and July (instead of five titles, three times a year in January, April and July), thereby reducing the total number of releases annually from 15 to 12 titles.

This consolidation of our workflows and output – in addition to a minor price increase of \$2 per title – will ensure the sustainability of our publishing program and offer greater affordability for your library budgets.

Rest assured it is business as usual, and subscribers will continue to be sent their titles as soon as they are released in late January and late July, but at an overall lower price.

The Spinney Press team is looking ahead to 2018 with renewed enthusiasm, knowing we will have a little more time to plan, research and curate content for the next thought-provoking issues ... AND with one less deadline!
