NEW RELEASES – January 2018 (out now)

SMOKING AND TOBACCO CONTROL

Volume 425 Edited by Justin Healey

print ISBN: 978 1 925339 50 5

ebook ISBN: 978 1 925339 51 2

Tobacco smoking is one of the largest preventable causes of death and disease in Australia. It is associated with an increased risk of a wide range of serious health conditions and is responsible for around 15,000 deaths each year. Although

smoking rates have decreased over the past 15 years, 2.6 million adult Australians still smoke daily. Why do so many people persist with such an addictive and deadly habit; what are the ways in which they can quit smoking? The increasing uptake of e-cigarettes is seen by some to help people quit smoking and reduce harm, and by others (including the government) to be an inducement to take up and normalise smoking, particularly by young people. How safe is 'vaping' and what are the arguments for and against e-cigarettes? Australia is a world leader in tobacco control, having introduced initiatives such as the banning of advertising, imposing a tobacco excise, and mandating smoke-free environments and plain packaging. Is the fight against Big Tobacco being won? Despite these interventions, why do so many Australians continue to let their health go up in smoke?

CHILD PROTECTION

Volume 426 Edited by Justin Healey

print ISBN: 978 1 925339 52 9

ebook ISBN: 978 1 925339 53 6

The reported prevalence of child maltreatment – neglect; physical, emotional and sexual abuse; and exposure to family violence – is at unacceptable levels in Australia. The number of children receiving child protection services (investigation, care and protection orders, and

out-of-home care) continues to rise. One in 33 children received child protection services in the past year alone; the majority are repeat clients. Disturbingly, indigenous children are 7 times as likely as non-indigenous children to receive protection services. What is child abuse and neglect and when is a child in need of protection? What are the causes, indicators and impacts of abuse involving children and adolescents? When should children at risk be removed from their parents, and is it possible or even preferable in certain cases to keep vulnerable kids with their families? There is no excuse for child abuse, but are we doing enough to protect children at risk?

BUSHFIRE SAFETY

Volume 427 Edited by Justin Healey

print ISBN: 978 1 925339 54 3

ebook ISBN: 978 1 925339 55 0

Bushfires and grassfires are common events throughout Australia, a land with a hot, dry climate. Every year bushfires occur across Australia, often taking human life and damaging property. Major firestorms such as Ash Wednesday and Black Saturday have left scars on the national

psyche and are stark reminders of the destructive power of bushfires. The impacts of climate change are clear with the emergence of more extreme fire weather in recent years; increasingly, many Australians are exposed to potentially catastrophic bushfires. Understanding bushfires and the risks they pose to whole communities is critical if we are to be resilient to these most common and destructive of natural disasters. This book explores the basics of bushfires, how and where they occur, the threats they pose and the hazards they bring. The book also explains in detail how to effectively prepare your home for a bushfire, and when to safely leave. Future bush fires are expected to get worse. Learn now how to prepare, act and survive.

GUN CONTROL

Volume 428 Edited by Justin Healey

print ISBN: 978 1 925339 56 7

ebook ISBN: 978 1 925339 57 4

Over two decades ago, federal, state and territory governments united in the wake of the devastating Port Arthur massacre to reform firearm laws in a concerted bid to reduce gun violence in Australia. The recently updated National Firearms Agreement and ongoing firearms amnesties have consolidated this national approach to gun control. However, Australia's arsenal of private guns is now larger than it was before the Port Arthur massacre, and there have been a number of politically-driven campaigns to reduce restrictions in state and territory gun control legislation. There are more imported firearms coming into Australia than ever before; at least 260,000 guns are estimated to be currently held illegally in Australia. Crime, terrorism, homicide, suicide – how much do guns actually figure in this deadly mix? Are we at risk of adopting a pervasive and deadly gun culture like that of the US? Are we going backwards on gun control, or are our laws too restrictive? This book explores the debate, featuring opinions on firearms restrictions from gun control advocates and the gun lobby. How should the ownership and use of firearms be regulated in Australia?

HUMAN RIGHTS IN AUSTRALIA

Volume 429 Edited by Justin Healey

print ISBN: 978 1 925339 58 1

ebook ISBN: 978 1 925339 59 8

Human rights recognise the inherent value of every person, regardless of our respective backgrounds, where we live, what we look like, what we think or what we believe. These rights are based on universal principles of dignity, equality and mutual respect, and are shared across cultures, religions and philosophies. Human rights are about being treated fairly, treating others fairly and being able to make choices about our own lives. Australia was recently elected to a seat on the United Nations Human Rights Council, however its own human rights record is not without controversy, attracting international and domestic scrutiny. What are Australia's international and domestic human rights obligations and how are they being addressed in relation to a number of issues such as asylum seeker detention, racial discrimination, free speech, indigenous advancement, juvenile incarceration, disability rights, gender equality and same-sex marriage? Does Australia need to lift its game on human rights if it is to be taken seriously on the international stage?

DEALING WITH DEBT AND FINANCIAL STRESS

Volume 430 Edited by Justin Healey

print ISBN: 978 1 925339 60 4

ebook ISBN: 978 1 925339 61 1

Australia's economy has experienced a record quarter-century of sustained growth, however alarm bells are ringing over climbing household debt. Are we heading towards a debt crisis? Many Australians are struggling to meet their repayments for mortgages, investments, personal debt, student debt and credit card debt. It has been estimated that two million Australians are experiencing high financial stress which prevents them from coping in difficult situations and in the face of unexpected expenses. What is financial stress, and how do factors like housing affordability, higher debts and overspending on low incomes contribute to financial pressure? How does stretching the bottom line affect people's health, relationships and financial security? This book is a helpful guide for young people to understand their personal finances, featuring ample advice on how to deal with debt, manage money through budgeting and savings, and develop financial literacy. Make the most of your money and learn how to manage debt, without the stress.

UPCOMING RELEASES – July 2018

BULLYING AND YOUNG PEOPLE

Volume 431 Edited by Justin Healey

print ISBN: 978 1 925339 62 8

ebook ISBN: 978 1 925339 63 5

Bullying involves one or more people repeatedly and deliberately harming, threatening or frightening someone with words, behaviour or actions. Bullying can be insistent and insidious and have devastating impacts on not just victims, but everyone involved. Bullying is, unfortunately,

common among young Australians at school, online and via mobile phones. This book identifies the various forms of bullying, explains its causes and effects, and presents advice on school anti-bullying strategies and how to tackle cyberbullying. Whether you are an educator, student, parent, bystander, offender or victim, there is an abundance of helpful information in this book to assist in understanding bullying and how to deal with it. Bullying is not okay, and should never be accepted as a regular part of growing up.

NUCLEAR ARMS CONTROL

Volume 432 Edited by Justin Healey

print ISBN: 978 1 925339 64 2

ebook ISBN: 978 1 925339 65 9

Nuclear arms are the most destructive weapons on the planet, capable of destroying cities, killing millions and leaving behind catastrophic, long-term humanitarian and environmental consequences. The recent friction on the Korean peninsula involving provocative North Korean

missile tests and antagonistic responses by the US has driven home the need for a total prohibition and elimination of nuclear weapons. Which nations currently possess these weapons of mass destruction, and what countermeasures are being taken by the international community, such as the implementation of treaties, negotiations, sanctions and inspections? What is Australia's current nuclear non-proliferation and disarmament policy; are we doing enough to contain and control the global threat of mutually assured destruction?

HUMAN GENETICS AND ETHICS

Volume 433 Edited by Justin Healey

print ISBN: 978 1 925339 66 6

ebook ISBN: 978 1 925339 67 3

Each cell in the human body contains about 20,000 genes. Genes carry the information that determines the traits that are passed on to you, or inherited, from your parents. Genes are the instructions for the growth and development of our bodies, however mutations in a person's

genome can result in a genetic condition or disease. How do the building blocks of the human body – DNA, genes and chromosomes – interrelate and interact with the environment, and contribute to a range of serious diseases? What are the dilemmas, risks and regulations associated with genetic testing and its related privacy and discrimination issues, the corporate patenting of people's genes, and the growing prospects of human genetic enhancement? What are the ethical implications of gene therapies and emerging biotechnology techniques like gene editing (CRISPR) in the manipulation of the human genome, such as the recent controversial development of three-parent babies? In this new era of personalised medicine are we as a species, going too far, or are we on a promising path to curing many deadly diseases? Does this all amount to scientific progress, or are we playing God with our own genes?

SEXUAL HARASSMENT

Volume 434 Edited by Justin Healey

print ISBN: 978 1 925339 68 0

ebook ISBN: 978 1 925339 69 7

Sexual harassment is any unwanted or unwelcome sexual behaviour, which makes a person feel humiliated, offended or intimidated. Recent personal revelations of sexual abuse and assault in Hollywood and in Australia's

own entertainment industry have inspired the #metoo campaign and publicly illustrated how prevalent and damaging such unlawful behaviours can be to the mostly female victims. This title explores the extent and impacts of everyday sexism and sexual harassment. It offers advice on how offenders, victims, bystanders and society as a whole can address this epidemic of sexual abuse which has, for so many years, gone unchecked and unchallenged in the face of male privilege, thereby further perpetuating female objectification and gender inequality. This volume also focuses on sexual harassment and violence in the workplace and on campuses, and how to prevent and report it. We all need to become champions of change and stop sexual harassment.

ALCOHOL AND HARM PREVENTION

Volume 435 Edited by Justin Healey

print ISBN: 978 1 925339 70 3

ebook ISBN: 978 1 925339 71 0

Alcohol consumption is widespread within Australia and is associated with many social and cultural activities, where it is frequently consumed at harmful levels. Binge drinking and excessive long-term alcohol consumption are significant

causes of injury, addiction, ill health, violence, crime, family breakdown, road accidents, lost workplace productivity and death in Australia. What are safe drinking levels according to the latest guidelines, and what are the immediate and long-term risks of alcohol consumption? This book also explores how can we prevent the harmful impacts of excessive alcohol intake and promote responsible drinking choices, especially among younger people. What social and health-based strategies can be used to arrest Australia's longstanding booze binge?

SAVING THE GREAT BARRIER REEF

Volume 436 Edited by Justin Healey

print ISBN: 978 1 925339 72 7

ebook ISBN: 978 1 925339 73 4

As the largest coral reef system on the globe and home to 1,500 species of fish and other diverse marine life, Australia's Great Barrier reef is unquestionably one of the great wonders of the natural world. Unfortunately, it is also in grave

danger of dying. Recent annual back-to-back coral bleaching events have drastically accelerated the already existing damage to the Great Barrier Reef and its rich biodiversity. The reef is under threat from numerous other pressures, both natural and man-made. These threats include over-fishing, coastal development, agriculture, mining, tourism, and the ravaging ecological impacts of climate change. How is Australia sustainably managing the reef and the land-based and sea life it supports? What conservation threats are being effectively addressed, before it is too late to save the Great Barrier Reef?

DIGITAL EDITIONS FOR SCHOOLS*

HAS YOUR SCHOOL ADDED DIGITAL EDITIONS TO ITS ISSUES IN SOCIETY COLLECTION YET?

DIGITAL EDITIONS are interactive PDFs which are self-managed by school users. Only available from The Spinney Press, from Volume 320 onwards.

Suitable for: School libraries, teachers, students.

Format/software: Interactive PDF using Adobe Reader 7.0+ (Mac, PC, tablets, ipads, interactive whiteboards, data projectors).

Delivery: Download link supplied by email (*note: you have 14 days to download the PDFs before the link expires*).

Flexible site licence included: Unlimited copying, printing; you manage the PDF files on your own password-secure network (this includes your school library or learning management system); you may make the PDFs remotely downloadable to students at home.*

Affordable pricing: Only an extra \$7.50 each when packaged in a Print + Digital Subscription direct from The Spinney Press.

* Check with your in-house IT support staff about how to securely manage Digital Editions on your school network's library or learning management system with your own password access.

PRINT + DIGITAL: THE BEST OF BOTH WORLDS

Students and staff can browse the *print* books in their school library, and also download their own *digital* copies in class or at home for assignments or lesson plans. Contact The Spinney Press to find out how, or visit our E-books web page.

BUNDLE AND SAVE!

Only \$7.50 each if packaged in a Print + Digital Subscription

EBOOKS FOR LIBRARY LENDING

ATTENTION: PUBLIC LIBRARIES, TAFE COLLEGES, UNIVERSITIES

Need your ebooks to be on a secure library lending platform?

You can source *Issues in Society* titles (Volume 320 to the latest releases), directly through any of our ebook library lending platform partners (see the list below).

ebook partners:

- Axis 360 (Baker & Taylor)
- BorrowBox (Bolinda Digital)
- Copia
- EBSCO eBooks
- OverDrive
- Proquest Ebook Central
- Wheelers ePlatform

For more information, visit:

www.spinneypress.com.au/books/EditionType/digital

Note: Ebooks from library platform partners cannot be bundled with print editions.

Each title contains the most current, quality content – compiled from a variety of trusted primary sources:

- Fact sheet information
- Magazine and journal extracts
- Lobby group and NGO literature
- Newspaper reports and features
- Opinion pieces and commentary
- Government reports and statistics
- Survey findings, tables, graphs
- Fast facts, glossary, web links
- Cartoons, illustrations, diagrams, photos
- Worksheets, activities

Individual titles and Standing Orders are available from The Spinney Press and all leading library suppliers and educational booksellers around Australia.

New to Issues in Society?

Orders direct from The Spinney Press are available to institutions – schools, public libraries, TAFE colleges, universities – **ON APPROVAL for 14 days***.

(* 14-day On Approval status does not apply to orders for Subscriptions and Digital Editions)

*I found The Spinney Press a great resource in my studies at TAFE. The subject matters are well thought out. **TAFE student***

*Love Spinney, info is easy to understand and current. **Secondary school librarian***

Fewer releases = cheaper subscriptions

As of this year, six new titles will be published twice a year in January and July (instead of the previous five titles, three times a year). The total number of releases per annum has consequently reduced from 15 to 12 titles.
