NEW RELEASES – July 2018 (out now)

BULLYING AND YOUNG PEOPLE

Volume 431 Edited by Justin Healey

print ISBN: 978 1 925339 62 8

ebook ISBN: 978 1 925339 63 5

Bullying involves one or more people repeatedly and deliberately harming, threatening or frightening someone with words, behaviour or actions. Bullying can be insistent and insidious and have devastating impacts on not just victims, but everyone involved. Bullying is, unfortunately, common among young Australians at school, online and via mobile phones. This book identifies the various forms of bullying, explains its causes and effects, and presents advice on school anti-bullying strategies and how to tackle cyberbullying. Whether you are an educator, student, parent, bystander, offender or victim, there is an abundance of helpful information in this book to assist in understanding bullying and how to deal with it. Bullying is not okay, and should never be accepted as a regular part of growing up.

NUCLEAR ARMS CONTROL

Volume 432 Edited by Justin Healey

print ISBN: 978 1 925339 64 2

ebook ISBN: 978 1 925339 65 9

Nuclear arms are the most destructive weapons on the planet, capable of destroying cities, killing millions and leaving behind catastrophic, long-term humanitarian and environmental consequences. Recent friction involving a provocative round of missile tests by North Korea and subsequent ongoing diplomatic efforts to denuclearise the Korean Peninsula and avoid a devastating nuclear conflict has prompted louder calls by many nations for the prohibition and elimination of all nuclear weapons. Which nations currently possess these weapons of mass destruction; and what countermeasures are being taken by the international community, such as the implementation of treaties, negotiations, sanctions and inspections? What is Australia's current nuclear non-proliferation and disarmament policy; are we doing enough to contain and control the global threat of mutually assured destruction?

HUMAN GENETICS AND ETHICS

Volume 433 Edited by Justin Healey

print ISBN: 978 1 925339 66 6

ebook ISBN: 978 1 925339 67 3

Each cell in the human body contains about 20,000 genes. Genes carry the information that determines the traits that are passed on to you, or inherited, from your parents. Genes are the instructions for the growth and development of our bodies, however mutations in a person's genome can result in a genetic condition or disease. How do the building blocks of the human body – DNA, genes and chromosomes – interrelate and interact with the environment, and contribute to a range of serious diseases? What are the dilemmas, risks and regulations associated with genetic testing and its related privacy and discrimination issues, the corporate patenting of people's genes, and the growing prospects of human genetic enhancement? What are the ethical implications of gene therapies and emerging biotechnology techniques like gene editing (CRISPR) in the manipulation of the human genome? In this new era of personalised medicine are we as a species going too far, or are we on a promising path to curing many deadly diseases? Does this all amount to scientific progress, or are we playing God with our own genes?

SEXUAL HARASSMENT

Volume 434 Edited by Justin Healey

print ISBN: 978 1 925339 68 0

ebook ISBN: 978 1 925339 69 7

Sexual harassment is any unwanted or unwelcome sexual behaviour which makes a person feel humiliated, offended or intimidated. Recent personal revelations of sexual abuse and assault in the entertainment industry have been given voice by the #MeToo movement and publicly illustrated how prevalent and damaging such unlawful behaviours can be to mostly female victims. This title explores the extent and impacts of everyday sexism and sexual harassment. It offers advice on how offenders, victims, bystanders and society as a whole can address this epidemic of sexual abuse which has, for so many years, gone unchecked and unchallenged in the face of male privilege, in turn perpetuating sex discrimination and gender inequality. This volume also focuses on sexual harassment and violence in the workplace, and how to prevent and report it. Ultimately, we all need to become champions of change to stop sexual harassment.

ALCOHOL AND HARM PREVENTION

Volume 435 Edited by Justin Healey

print ISBN: 978 1 925339 70 3

ebook ISBN: 978 1 925339 71 0

Alcohol consumption is widespread within Australia and is associated with many social and cultural activities, where it is frequently consumed at harmful levels. Binge drinking and excessive long-term alcohol consumption are significant causes of injury, addiction, ill health, violence, crime, family breakdown, road accidents, lost workplace productivity and death in Australia. What are safe drinking levels according to the latest guidelines, and what are the immediate and long-term risks of alcohol consumption? This book also explores how we can prevent the harmful impacts of excessive alcohol intake and promote responsible drinking choices, especially among younger people. What social and health-based strategies can be implemented to arrest Australians' longstanding booze binge?

SAVING THE GREAT BARRIER REEF

Volume 436 Edited by Justin Healey

print ISBN: 978 1 925339 72 7

ebook ISBN: 978 1 925339 73 4

As the largest coral reef system on the globe and home to 1,500 species of fish and other diverse marine life, Australia's Great Barrier Reef is unquestionably one of the great wonders of the natural world. Unfortunately, it is also in grave danger of dying. Recent annual back-to-back coral bleaching events have drastically accelerated the existing damage to the Great Barrier Reef and its rich biodiversity. The reef is under threat from numerous pressures, both natural and man-made. These threats include over-fishing, coastal development, agriculture, mining, tourism and the ravaging ecological impacts of climate change. How is Australia sustainably managing the reef and the land-based and sea life it supports? What conservation threats are being effectively addressed – is it too late to save the Great Barrier Reef?

UPCOMING RELEASES – January 2019

STOLEN GENERATIONS AND THE WAY AHEAD

Volume 437 Edited by Justin Healey

print ISBN: 978 1 925339 74 1

ebook ISBN: 978 1 925339 75 8

It has been over twenty years since the release of the landmark *Bringing Them Home* report and more than a decade since the National Apology was delivered by then-Prime Minister Kevin Rudd to Stolen Generations survivors – Aboriginal and

Torres Strait Islander Australians who have suffered as the result of past government policies and practices of forced child removal and assimilation. Acknowledging the wrongs of the past was a significant milestone in the history of our nation, but there is still much work to be done to heal the enduring trauma experienced by survivors, families and communities. After two decades, the majority of the *Bringing Them Home* recommendations have not been implemented, adding to ongoing distress. In the meantime, this inaction fails to address the escalating national crisis involving continuing removal of indigenous children from their families. What is the nation's plan for healing this pain; are we any closer to needs-based funding and a financial redress scheme, dealing with intergenerational trauma and establishing an appropriate policy response? What is the way ahead for the 'unfinished business' in the long journey towards healing?

GAMBLING ISSUES

Volume 438 Edited by Justin Healey

print ISBN: 978 1 925339 76 5

ebook ISBN: 978 1 925339 77 2

Almost 7 million Australians are estimated to be regular gamblers, spending money on one or more gambling activities each month. Australian gambling losses were at an all-time high at \$24 billion in the past year alone. What are the actual odds, myths and facts behind the chances of

winning on poker machines, racing, live sports betting, lotteries, and at casinos and online? What are the warning signs and harms of problem gambling, and what help is available to people affected by it? What restrictions has the government placed on gambling marketing, much of which is aimed at children and young people across television and radio broadcasts and online? This book reveals the various major forms of gambling activity and expenditure in Australia; it explores the issues involved in dealing with problem gambling; and investigates gambling advertising and its impacts on young people. Why are Australians the world's biggest gamblers? Are we really winning against the odds?

PORNOGRAPHY AND ITS HARMS

Volume 439 Edited by Justin Healey

print ISBN: 978 1 925339 78 9

ebook ISBN: 978 1 925339 79 6

Nearly half of Australian children aged 9-16 years experience regular exposure to sexual images via the media, online and hand-held devices. Pornography does not exist in a digital vacuum, but rather within a broader social context which reinforces sexual attitudes, beliefs and stereotypes

about gender, sexism, sexual objectification, unsafe sexual health practices and violence-supportive attitudes. What are the impacts of porn? How do young people navigate the risks and realities of intended and accidental exposure to explicit content? This resource sensitively handles topics including 'sexting', image-based abuse, age verification, parental controls and communication with teens about pornography. The book explores interventions and initiatives aimed at educators, parents and young people to address the harms of pornography through promotion of online safety practices, critical thinking and discussion. How do we deal with the harms of early access to pornography and promote appropriate digital and sexual literacies for young people and their developing sexuality? "Sex sells" – but if it's so freely available and left to its own devices – at what price?

PLASTIC POLLUTION

Volume 440 Edited by Justin Healey

print ISBN: 978 1 925339 80 2

ebook ISBN: 978 1 925339 81 9

Plastic products and packaging are integral to modern daily life. Plastic is durable, cheap, light and can be flexible or rigid, with multiple uses – however plastic is also making the planet a victim of its own success. Plastic pollution has become an epidemic, afflicting land, waterways, coastlines and oceans. More than 8 million tonnes of plastic go into the world's oceans each year, killing marine life as it breaks down into billions of microplastic pieces, without decomposing. Consumption of plastic has increased exponentially, but while plastic and packaging recycling in Australia is well established, currently only 14% of plastic is recovered for recycling or energy recovery. How can we reduce the amount of plastic waste, increase recycling and minimise impacts on the environment? What are governments, industry, retailers and consumers doing to eliminate the use of plastic packaging including bags, bottles and containers to reduce landfill waste and ocean pollution? This book offers confronting facts on plastic use, but also features strategies aimed at tackling plastic pollution. Now is the time to save our planet from the growing perils of plastic.

GLOBAL POVERTY AND WEALTH INEQUALITY

Volume 441 Edited by Justin Healey

print ISBN: 978 1 925339 82 6

ebook ISBN: 978 1 925339 83 3

Despite marked progress in poverty reduction over recent decades, the number of people living in poverty remains unacceptably high. More than 790 million people live in extreme poverty, surviving on less than \$1.90 a day. Why is there still so much poverty in the world; how is it measured; and what is being done by way of trade, debt relief and aid to achieve the United Nations' Sustainable Development Goal 1: End poverty in all its forms everywhere? By contrast, many around the world have never had it so good. Global income and wealth inequality is on the rise: 82% of the wealth generated last year went to the richest 1% of the global population, while the poorest half of the world's people saw no increase in their wealth. Just *eight* men own the same wealth as *half the world*. What are the causes of this staggering inequality, and how can we achieve the UN's Goal 10: Reduce inequality within and among countries? Using data and analysis from the latest key reports, this book provides an overview of the extremes between wealth and poverty. Can the world afford to let the gap widen any further?

REPRODUCTIVE ETHICS

Volume 442 Edited by Justin Healey

print ISBN: 978 1 925339 84 0

ebook ISBN: 978 1 925339 85 7

Assisted reproductive technology (ART) is a group of procedures used to assist people in achieving a pregnancy. Recent advancements in the use and availability of ART treatments such as in vitro fertilisation (IVF), gamete intrafallopian transfer (GIFT), gamete donation and surrogacy have raised numerous ethical considerations. This book explores reproductive concerns and opposing opinions on a range of issues including: the use of IVF by older women; success rate claims of commercial clinics; access by IVF offspring to the identities of their donors; the fate of excess frozen embryos; public funding of IVF; payment for egg donation; 'social egg freezing' by younger career women delaying motherhood; the dilemmas of preimplantation genetic screening; sex selection; the collection of gametes and embryos from deceased loved ones; mitochondrial donation and 'three-parent IVF'; and commercial surrogacy arrangements. Are existing guidelines and laws in Australia in step with the many ways we can now reproduce ourselves? Or are we going too far in dictating the terms of human fertility?

ANNUAL SUBSCRIPTIONS

Print + Digital Subscription

\$450/year – schools only

'Digital Editions' are interactive PDFs – via email download link
12 print titles/year (post-free) + 12 digital titles/year

Print Subscription

ATTENTION SCHOOLS: why not consider a **Print + Digital Subscription** package. Cover both bases and save ...
... bundle your books now!

Contact The Spinney Press about becoming a new subscriber, or to renew or upgrade your existing *Issues in Society* subscription.

Individual titles and Standing Orders are available from The Spinney Press and all leading library suppliers and educational booksellers around Australia.

DIGITAL EDITIONS FOR SCHOOLS*

HAS YOUR SCHOOL ADDED DIGITAL EDITIONS TO ITS ISSUES IN SOCIETY COLLECTION YET?

DIGITAL EDITIONS are interactive PDFs which are self-managed by school users. Only available from The Spinney Press, from Volume 320 onwards.

Suitable for: School libraries, teachers, students.

Format/software: Interactive PDF using Adobe Reader 7.0+ (Mac, PC, tablets, ipads, interactive whiteboards, data projectors).

Delivery: Download link supplied by email (*note: you have 14 days to download the PDFs before the link expires*).

Flexible site licence included: Unlimited copying, printing; you manage the PDF files on your own password-secure network (this includes your school library or learning management system); you are free to make the PDFs remotely downloadable to students at home.*

Affordable pricing: Only an extra \$7.50 each when packaged in a Print + Digital Subscription direct from The Spinney Press.

* Check with your in-house IT support staff about how to securely manage Digital Editions on your school network's library or learning management system with your own password access.

PRINT + DIGITAL: THE BEST OF BOTH WORLDS

Students and staff can browse the *print* books in their school library AND download their own *digital* copies in class or at home. Contact The Spinney Press to find out how, or visit www.spinneypress.com.au/books/EditionType/digital

BUNDLE AND SAVE!

Only \$7.50 each packaged in a Print + Digital Subscription

EBOOKS FOR LIBRARY LENDING

ATTENTION: PUBLIC LIBRARIES, TAFE COLLEGES, UNIVERSITIES

Do you need your ebooks to be on a secure library lending platform?

You can source *Issues in Society* titles (Volume 320 to the latest releases), directly through any of our ebook library lending platform partners (see the list below).

For more information, visit:

www.spinneypress.com.au/books/EditionType/digital

Note: Ebooks from library platform partners cannot be bundled with print editions.

CURRENT TOPICS: HOT OFF THE PRESSES!

It may interest readers to know we really do care about featuring the most up-to-date information in our new releases.

A couple of the new July titles are so topical that our team had its hands full finalising content for late-breaking inclusion. Notably, we offer thanks to the Australian government for its new funding package aimed at preserving the Great Barrier Reef; to US President Donald Trump and North Korea's Kim Jong-un for eventually holding denuclearisation talks (*and not blowing us all up!*) ... and to our trusted book printer for patiently humouring our deadline delays.

SUBSCRIPTION RENEWALS: INVOICES OUT NOW FOR 2019

Attention subscribers: please note your annual subscription renewal invoices (for 2019) are included with your July print books (postal delivery due *first* week of August) and ebook releases (emails for digital downloads due *second* week of August). Same number of titles next year (12), same low price, same high quality.

EMAIL ADDRESS: IS YOURS UP TO DATE?

Wondering why you may not have seen our quarterly *Issues in Society* e-newsletter lately? Or perhaps you have not received the Digital Editions download links in your digital editions subscription? Chances are, your contact person has changed, along with the relevant email address. If this is the case, send us your current email details at <http://spinneypress.com.au/join-mailing-list/> to ensure you keep up to date with the issues.

Hot topics every release

12 titles/year

Subscribe and save

Trending topics among the new July 2018 releases include: nuclear arms control, sexual harassment, saving the Great Barrier Reef.

Six new titles published twice a year every January and July.

Save postage and time; bundle print and digital (schools only).

Every issue features current content compiled from a variety of trusted primary sources:

- Fact sheet information
- Magazine and journal extracts
- Lobby group and NGO literature
- Newspaper reports and features
- Opinion pieces and commentary
- Government reports and statistics
- Survey findings, tables, graphs
- Fast facts, glossary, web links
- Cartoons, illustrations, diagrams, photos
- Worksheets, activities
