NEW RELEASES – JULY 2021

UPCOMING RELEASES – JANUARY 2022

RESPONDING TO RACISM

Volume 467 Edited by Justin Healey

print ISBN: 978 1 922274 34 2

ebook ISBN (PDF): 978 1 922274 35 9

The global spread of the Black Lives Matter movement has exposed the profound and wide-reaching impacts of racial injustice. Racism happens in many forms and contexts, ranging from casual to systemic racism, racial vilification and physical violence. This book looks at how the

social cohesion of a culturally diverse nation like Australia is challenged by the complex and incendiary issue of racial discrimination. Topics explored include casual racism, hate speech, cyber racism, Islamophobia, anti-semitism, white supremacist extremism, abuse of Asian people during the coronavirus pandemic, the influence of the BLM protest movement, and the longstanding racial justice calls by Australia's First Nations peoples. Strategies are also offered on how to deal with racial discrimination through promoting greater awareness of legal rights and protections, as well as explaining how we as a community can manage and eliminate racism in public, at school, in sport, and online. Learn to recognise racism and respond with equality and respect for people of every race, colour and creed.

POSITIVE AND RESPECTFUL RELATIONSHIPS

Volume 468 Edited by Justin Healey

print ISBN: 978 1 922274 36 6

ebook ISBN (PDF): 978 1 922274 37 3

Couple relationships have their ups and downs, however partners should always treat each other with respect, and feel safe. What are the latest trends in couple relationships, and what are the features of a successful, healthy relationship?

This book is aimed at young people and explains the issues around sexual consent, how to effectively communicate and avoid conflict, and how to avoid abuse in couple relationships. Topics include understanding feelings, consensual physical intimacy, safe online dating, handling conflict and disagreements, identifying the warning signs and various forms of partner abuse, violence and coercive control in relationships, and dealing with break-ups. Practise positive behaviours and relate with respect.

RIGHTS OF CHILDREN AND YOUNG PEOPLE

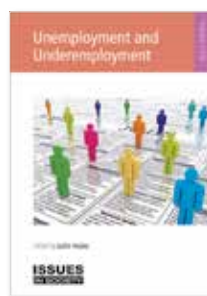

Volume 469 Edited by Justin Healey

print ISBN: 978 1 922274 38 0

ebook ISBN (PDF): 978 1 922274 39 7

Children and young people have a fundamental right to be heard and taken seriously about matters affecting them. They have the same general human rights as adults, but also possess specific rights that recognise their special

needs and potential. This book explains how these rights are set out in the United Nations Convention on the Rights of the Child – the most widely ratified human rights treaty in history. It also examines the state of children's rights in Australia, where there have been some positive developments, but also a number of critical issues and mixed results. The latest progress reports recommend that Australia improves its treatment of vulnerable children in certain areas, including reducing youth detention, raising the age of criminal responsibility, supporting youth mental health, advancing outcomes for Aboriginal and Torres Strait Islander children, caring for asylum seeker and refugee children, addressing child abuse and neglect, and eliminating youth poverty. What are the rights of parents in relation to raising their children, and why is it still legal for adults to hit children as punishment? A gap remains between the rights Australia has promised vulnerable children and how those rights are implemented. Are the human rights of our children and young people at risk?

UNEMPLOYMENT AND UNDEREMPLOYMENT

Volume 470 Edited by Justin Healey

print ISBN: 978 1 922274 40 3

ebook ISBN (PDF): 978 1 922274 41 0

As Australia's economy recovers from the coronavirus pandemic, jobs growth is bouncing back in most sectors, in spite of disruptions from lockdowns and many workers being based at home. Meanwhile, the recent modest rise in the

JobSeeker payment has been broadly criticised as insufficient to help recipients find work and keep up with the costs of living, entrenching financial stress and mental distress, and affecting motivation and skills. Of additional concern is the rate of underemployment, which has overtaken the jobless rate. Most new jobs being created are in part-time, casual or insecure gig work, affecting a higher proportion of young people. Is job insecurity now the norm for many Australians? This title explains the fundamentals around the measurement and types of unemployment and reveals who it most affects. It also examines the latest employment trends and impacts of casualisation on job security. Government policies and social sector strategies for tackling the economic and social consequences of unemployment and underemployment are also featured. Finding a job, and indeed enough employment, can be hard work in itself.

AUSTRALIA'S RELATIONS WITH CHINA

Volume 471 Edited by Justin Healey

print ISBN: 978 1 922274 42 7

ebook ISBN (PDF): 978 1 922274 43 4

The Australia-China bilateral relationship is very significant to Australia and is mostly based on substantial trade ties. Crucially, China accounts for around a third of Australia's total export income, however diplomatic and economic

relations are currently at a low point. Globally, China is asserting its emerging superpower status and it appears actions by the communist party leadership in Beijing are primarily responsible for the deterioration in the bilateral relationship – however both sides have made mistakes, and Australia is not without fault. China's blunt use of repeated trade sanctions to penalise Australia for alleged slights risks the mutually beneficial trading relationship being undermined by damaging political interference. What are the various grievances and points of difference between these two countries? How can Australia serve its own national and strategic interests and maintain its foreign policy objectives, without needlessly antagonising China? Can we end the trade war and repair relations?

COPING WITH NATURAL DISASTERS

Volume 472 Edited by Justin Healey

print ISBN: 978 1 922274 44 1

ebook ISBN (PDF): 978 1 922274 45 8

Australia's variable climate, geography and environment frequently places communities, infrastructure, ecosystems and cultural and heritage sites in the path of natural hazard events. Natural hazards are driven primarily by weather and geology.

Weather-driven natural hazards include bushfires, floods, heatwaves, cyclones, landslides and thunderstorms, while geological-driven hazards include earthquakes and tsunamis. The major bushfires and floods of the past two years have demonstrated how increasingly exposed the nation is to natural hazards, causing distressing loss of life and property, and devastating the environment. A recent royal commission has exposed gaping holes in Australia's readiness for natural disasters. How should we better prepare for natural hazards and mitigate their impacts from becoming disasters; and how can we cope during and after they have occurred? What could we do at a government, emergency services, community and personal level to protect ourselves, develop resilience, and recover from the next major natural disaster?

UNDERSTANDING SEXUAL CONSENT

Volume 473 Edited by Justin Healey
print ISBN: 978 1 922274 46 5
ebook ISBN (PDF): 978 1 922274 47 2

Consent is an agreement between people to engage in sexual activity. Sexual activity is something to be done with someone, not to someone. Consent is a critical part of this process and must be freely given, informed and mutual.

However, if you don't have consent, it is a criminal offence. Sexual assault is any unwanted behaviour of a sexual nature that makes a person feel uncomfortable, scared or threatened. Sexual negotiation can be a difficult or awkward process for anyone, regardless of age, to navigate. How do young people negotiate safe sexual contact together? What personal and societal pressures may contribute to non-consensual sex, and how do we promote a respectful culture of consent? Learn how to clearly define consent and to understand the personal and legal consequences of sexual assault. It is always better to be safe than sorry, to communicate with care and respect, and to uphold consent above conquest.

MANAGING AUSTRALIA'S WATER

Volume 474 Edited by Justin Healey
print ISBN: 978 1 922274 48 9
ebook ISBN (PDF): 978 1 922274 49 6

Fresh water is our most precious resource; its scarcity is one of our greatest threats. The recent drought in Eastern Australia – where Sydney experienced severe drought, while towns across New South Wales and Queensland ran out of drinking water – demonstrates our exposure to

water scarcity. A recent Productivity Commission report found Australia's blueprint for water reform, the National Water Initiative, is not fit for the challenges of climate change and our growing population. How can Australia achieve greater progress in water reform and improve the allocation of water resources through fairer water trading and rights and new infrastructure projects, as well as preserve the Murray-Darling Basin for food security, address advancing climate change, acknowledge Indigenous rights to water, deliver decent drinking water to all Australians, and ensure adequate drought management plans are in place around the country? We need to manage our water well into the future, before we are down to the last drop.

SEXUAL IDENTITY AND GENDER DIVERSITY

Volume 475 Edited by Justin Healey
print ISBN: 978 1 922274 50 2
ebook ISBN (PDF): 978 1 922274 51 9

Gender, sex and sexuality are separate, distinct parts of people's overall identity, and are not always obvious or easy concepts to understand. Sexuality is about how you see and express yourself romantically and sexually. Gender refers

to an internal sense of identity, while sex refers to the identity assigned to a person at birth based on physical characteristics. There are lots of ways to describe sexuality and gender, a number of which are captured by the term LGBTQIA+. Many LGBTQIA+ people face discrimination and prejudice that can affect their health, wellbeing, rights and opportunities. This book explores a range of issues across the sexual identity and gender diversity spectrum, including issues such as coming out and disclosure, being an ally to LGBTQIA+ people, and addressing the human rights of the LGBTQIA+ members of our community. Not everyone's identity and orientation is black and white. Learn how to acknowledge all people's true colours, with acceptance and understanding, and without prejudice.

HOUSING THE HOMELESS

Volume 476 Edited by Justin Healey
print ISBN: 978 1 922274 52 6
ebook ISBN (PDF): 978 1 922274 53 3

Every night 116,000 Australians are homeless, lacking safe, secure or affordable housing. This includes rough sleepers, people staying in temporary accommodation, and those sharing with others in severely crowded dwellings.

Homelessness has profound effects on various social groups including struggling families, young people, women escaping domestic violence, older women, Indigenous Australians, and people with substance abuse and mental health problems. Australia's homeless problem is growing, in spite of 300,000 Australians already receiving help from specialist homelessness services each year. Most rough sleepers were temporarily housed by governments during the early stages of the COVID-19 pandemic but are now back on the streets fending for themselves. What can governments do to permanently deal with the homeless epidemic? How could more emergency housing, supported accommodation, private rental housing, and long-term affordable and social housing better meet demand for essential shelter? There is a concerning property boom in Australia – what about the overlooked plight of the homeless?

FUTURE OF TRANSPORT

Volume 477 Edited by Justin Healey
print ISBN: 978 1 922274 54 0
ebook ISBN (PDF): 978 1 922274 55 7

Recent advances in technology have revolutionised how we all connect and communicate – so what does the future of transport look like? Transport is the second largest source of greenhouse gas emissions in Australia, a country with a heavy reliance on fossil-fuelled cars and road freight.

Technology in the transport sector is undergoing rapid change, bringing with it opportunities to improve safety, accessibility, efficiency and sustainability. Important transport developments include automation, connectivity, smart infrastructure, the sharing economy and a move towards zero emission vehicles. A number of emerging innovations are examined in this book, including public transport (trackless trams, high-speed rail), Mobility as a Service and ride sharing, micromobility vehicles such as e-bikes and scooters, electric aircraft development, and alternative fuelled, self-driving and flying vehicles. Why does Australia still have the handbrake on the slow uptake of electric vehicles? Are autonomous and flying cars a bright new dawn, or simply science fiction? This book explores the viability of future modes of transport, with a focus on the transition to electric, hydrogen-powered and autonomous vehicles. Is Australia keeping up with the next transport revolution, or are we on the road to nowhere?

BODY IMAGE ISSUES

Volume 478 Edited by Justin Healey
print ISBN: 978 1 922274 56 4
ebook ISBN (PDF): 978 1 922274 57 1

Body image entails a person's perception of their physical self and the positive and negative thoughts and feelings which result from that perception. Body dissatisfaction can be influenced by a complex interaction of factors ranging between individual thoughts, beliefs, feelings and

behaviours regarding our own body, and our perception of the ideal body within our social and cultural environment, including on social media. In some individuals, body dissatisfaction and weight stigma can lead to debilitating physical and mental health consequences, such as eating disorders, body dysmorphic disorder, compulsive exercising, excessive dieting and cosmetic procedures. This book explores how we can better understand and accept our bodies and ourselves, offering helpful advice on how young people can build better body image. We come in all shapes and sizes, so let's celebrate our individuality and diversity.
