## NEW RELEASES – July 2019

## UPCOMING RELEASES – January 2020

**Brand new topics!**

## PHYSICAL INACTIVITY

Volume 443 Edited by Justin Healey

print ISBN: 978 1 925339 86 4

ebook ISBN: 978 1 925339 87 1

Only about a third of children and under half of adults are meeting Australia's Physical Activity and Sedentary Behaviour Guidelines. Most children exceed the recommended amount of screen-based activity time, while time spent sitting at leisure goes up in adults as they get older. Inactivity

increases overweight and obesity, raising the risk of chronic and life-threatening diseases like cardiovascular disease, dementia, type 2 diabetes and some cancers. Regular physical activity not only reduces health risks, it improves social and emotional health and wellbeing. Which groups of inactive Australians are most at risk of lifestyle-related illness? What levels and types of activity and exercise are required for optimal health at each life stage, and how can we incorporate regular activity into our daily lives? This book explains the risks and consequences of physical inactivity, and in turn promotes the benefits of being active. It's time to move it or lose it.

## FOOD INSECURITY AND WASTE

Volume 444 Edited by Justin Healey

print ISBN: 978 1 925339 88 8

ebook ISBN: 978 1 925339 89 5

Australia is a prosperous country, yet there remains a sizeable portion of the population who lack a regular supply of nutritious and affordable food, either going hungry or relying on assistance from charities and food banks. In the past year alone, more than four million Australians have been in

a situation where they have run out of food and have been unable to buy more. Conversely, we also waste a lot of food right through the supply chain; the cost of food waste to the national economy is a staggering \$20 billion each year. What are the many ways in which we could reduce our individual food waste? How can Australia address the needs of people who are food insecure, and by the same token minimise food waste, to encourage an equitable and sustainable approach to food? One thing is clear: we could do more to live by the old adages, 'you are what you eat' and 'waste not, want not'.

## INDIGENOUS PEOPLE AND CRIMINAL JUSTICE

Volume 445 Edited by Justin Healey

print ISBN: 978 1 925339 90 1

ebook ISBN: 978 1 925339 91 8

Indigenous Australians are among the most incarcerated people on Earth. Aboriginal and Torres Strait Islanders make up 2% of all Australians, yet constitute more than a quarter of the nation's prison population. Over-representation in the

criminal justice system by Indigenous men, women and young people is a persistent and growing problem. What are the reasons for these high imprisonment rates; and what reforms are being proposed to reduce Indigenous people's contact with the criminal justice system? Are 'tough on crime' policies flouting deaths in custody recommendations and further entrenching Indigenous disadvantage before the law? After the recent Northern Territory Royal Commission, prompted by the exposure of shocking abuses, has anything changed in relation to youth detention? This book examines the latest research and statistics on Indigenous imprisonment, and reviews progress on addressing Aboriginal deaths in custody recommendations and reforming the detention of young Indigenous people. How can governments reduce incarceration and commit to working with Aboriginal and Torres Strait Islander communities to implement overdue interventions? What will it take to unlock the problems of Indigenous inequality and over-representation in the criminal justice system?

## POVERTY AND INEQUALITY IN AUSTRALIA

Volume 446 Edited by Justin Healey

print ISBN: 978 1 925339 92 5

ebook ISBN: 978 1 925339 93 2

Australia has experienced its longest ever period of economic growth over the last quarter century. Yet, there are growing concerns and debate about the distribution of benefits from this growth, and the extent to which inequality is increasing. One in

eight adults and more than one in six children are living in poverty, while the share of income going to the top is growing at the expense of low- and middle-income earners. The disparity between rich and poor Australians extends beyond income to educational, postcode, intergenerational and technological inequality – all of which are at the core of opportunity. How are poverty and inequality measured; what are the features of deprivation experienced by people living with entrenched economic disadvantage, struggling with rising costs of living and housing pressures, and reliant on social security and charity? Is Australia – long seen as the egalitarian land of the 'fair go' – now a divided nation of haves and have-nots? How do we tackle economic disadvantage and poverty, and facilitate fairness and opportunity for all?

## STRESS AND YOUNG PEOPLE

Volume 447 Edited by Justin Healey

print ISBN: 978 1 925339 94 9

ebook ISBN: 978 1 925339 95 6

Most people suffer from stress at some point in their lives, yet it affects people in different ways. A certain level of stress is necessary to motivate us to reach our potential, however if we experience too much stress, it can become a serious health concern. This guide is aimed at helping young

Australians to identify and understand stress and its impacts on their mental and physical health. It features a range of tips, strategies and tools for managing and reducing stress, including relaxation techniques. The title also dedicates a chapter to handling exam stress, showing readers how to reduce stress caused by study pressures and most effectively prepare for exams. Learn how to stress less and be at your best under pressure.

## MEDIA LITERACY IN THE DIGITAL AGE

Volume 448 Edited by Justin Healey

print ISBN: 978 1 925339 96 3

ebook ISBN: 978 1 925339 97 0

Many of us, particularly young consumers, are constantly connected online and increasingly informed by digital media. For the first time, Australians' use of online news has surpassed traditional offline news sources. In this confusing

age of misinformation, how do we make sense of media messages? Media literacy and education are essential tools; we need to be able to tell fact from fiction in news that is rapidly and pervasively generated by multiple sources via websites and digital platforms, including social media. This book is a timely guide aimed at teachers and students, featuring expert advice on how to promote the necessary skills to access, understand, question, critically analyse and evaluate digital media. If we are to be well-informed and entertained by online content, it is important that we understand the news media environment and our engagement with it, in all of its factual, social and ethical dimensions. How is 'fake news' spread, and how can you detect it? What sources should you trust, and why?

## MASCULINITY AND MALE IDENTITY

Volume 449 Edited by Justin Healey

print ISBN: 978 1 925339 98 7

ebook ISBN: 978 1 925339 99 4

The status quo of gender-based inequality and discrimination in our society perpetuates the notion that we live in “a man’s world”. Traditional masculine stereotypes persist in a culture which identifies men as self-reliant, emotionally reticent, focused on work over family, and oversexed.

When these beliefs are taken to extreme levels by boys and men, they result in poor relationships, mental health problems and risky behaviours. Rethinking masculinity can help men and boys to move away from narrow masculine ideals and negative role models towards healthier, more diverse approaches to male identity. This book explores what it means to be a “a real man” in Australia, questioning the masculine stereotypes which sustain gender inequality. In addition, the book examines “toxic masculinity”, traditional male gender roles, misogyny and attitudes which promote violence and disrespect towards women. It also addresses the impacts of traditional masculine norms on men’s health and wellbeing. What does it mean to be a man in a changing world – is there really a crisis in masculinity? How can society – and boys and men as individuals – encourage positive, healthier masculinities?

## ARTIFICIAL INTELLIGENCE

Volume 450 Edited by Justin Healey

print ISBN: 978 1 922274 00 7

ebook ISBN: 978 1 922274 01 4

Artificial intelligence (AI) has been quietly evolving from futuristic sci-fi movie plots and into the factual present day. Put simply, AI is a computer system that can do tasks that humans need intelligence to do. AI is already transforming the way we live, work, communicate and travel. From

the development of driverless cars, to the machine learning and algorithms that power our mobile phones, voice-activated assistants and the internet of things, we are already co-existing and engaging with AI-enabled technology. However, along with the potential to improve our quality of life, AI risks compromising basic human rights and freedoms. We all need to better understand how AI is being developed, used and regulated as it becomes more embedded and empowered in the world around us. What is artificial intelligence, how does it work, and what are the benefits and ethical concerns? The robot revolution is happening right now – how much do you really know about the impacts of AI on your everyday life?

## ACTIVISM AND PROTEST

Volume 451 Edited by Justin Healey

print ISBN: 978 1 922274 02 1

ebook ISBN: 978 1 922274 03 8

In a free society such as Australia, the right to peaceful protest is a long-practised feature of our democracy. The nightly news frequently broadcasts images of activists rallying for social change on diverse issues ranging from animal rights to coal mines, gay marriage, religious freedom and alt-

right anti-immigration views. Social change movements are increasingly championed online through social media and e-petitions as well as on the streets, placing pressure on politicians and raising the public profile of a range of causes. Anti-protest laws, expanded police powers, and political disapproval towards electoral activism, chaotic vegan protests and mass climate change action by school students, have all directed a spotlight on the principles of protest and the role of activist groups in organising resistance and raising awareness of controversial causes. This brand new topic examines protest movements, rights and protections, and explores how activism can influence public opinion and hold governments and business accountable. Is the current climate of protest growing hotter for social change? Is Australia witnessing a rising tide of activism which is shifting “power to the people”?

## CONSERVING NATIVE FORESTS

Volume 452 Edited by Justin Healey

print ISBN: 978 1 922274 04 5

ebook ISBN: 978 1 922274 05 2

Time is running out for the world’s forests, whose total land area is shrinking daily. Humans depend on forests for shelter, the food we eat, the air we breathe and the wood products we use. Besides providing habitats for animals and livelihoods for people, forests also protect biodiversity, prevent

soil erosion and help to mitigate climate change. Global deforestation and forest degradation is a great problem requiring greater action. This book looks at the current state of the world’s forests and progress towards more sustainable forest conservation globally. It also focuses on how Australia is managing and conserving its own native forests, with topics including forestry protection policies; tree-clearing and logging practices; the debate over native forest logging, including old growth forests; sustainable forestry practices, plantations and certification; and addressing habitat destruction and species loss. What are the sustainable solutions to deforestation and forest management – how do we see the forests for the trees?

## DRUG USE AND HARM REDUCTION

Volume 453 Edited by Justin Healey

print ISBN: 978 1 922274 06 9

ebook ISBN: 978 1 922274 07 6

Harm reduction entails policies, programs and practices aimed at reducing the harms associated with the use of psychoactive drugs in people who are unwilling or unable to stop. The focus is on the prevention of harm, rather than on the prevention of drug use itself. Harm reduction has

been a principle of Australia’s approach to drug use for several decades. However, recent overdose deaths and hospitalisations at music festivals have highlighted the clear harms of illicit drug use and prompted a debate over the introduction of pill testing, with political leaders being reluctant to implement the measure. This book explores the ethical, legal and medical pros and cons in the debate, with a topical focus on pill testing. Does pill testing give young people a false sense of security and promote further risky drug use, when there is really no safe level at which these substances can be taken? Or are harm reduction approaches such as pill testing and needle and syringe programs simply about saving lives and giving people a safety net? In a perfect world, no one would risk their lives by taking party drugs – but in reality, is harm reduction too bitter a pill to swallow?

## AUSTRALIA'S ENERGY DEBATE

Volume 454 Edited by Justin Healey

print ISBN: 978 1 922274 08 3

ebook ISBN: 978 1 922274 09 0

Australia’s energy system is undergoing major transformation, driven by economic, environmental and engineering factors. Consumer preferences are also changing as we seek greater independence and control over our electricity supply through smart meters, solar panels, battery storage and

electric vehicles. Most of Australia’s energy supply still heavily relies on its traditional, non-renewable resources of coal, oil and gas – yet Australia has plentiful clean energy renewable resources including solar, wind, geothermal, bioenergy, wave and tidal power. We also have the world’s largest reserves of uranium to rely on – should we ever decide to choose controversial nuclear power as part of our energy mix. A secure supply of affordable, reliable and environmentally sustainable energy is essential to the nation’s future growth and prosperity. What are the pros and cons of Australia’s various energy options? Are we adapting quickly enough to renewables or clinging too long to fossil fuels, at a time when other advanced economies are leaving non-renewables behind to counter the impacts of greenhouse gas emissions on climate change? Australia’s energy policy debate is far from settled – so how should we power into the future?

# ANNUAL SUBSCRIPTIONS

## PRINT+DIGITAL SUBSCRIPTION \$450

Schools only\*

12 print titles/year (post-free) + 12 digital titles/year

Digital Editions supplied via download

## PRINT SUBSCRIPTION \$360

Public libraries, universities, colleges, schools

12 print titles/year (post-free)

## DIGITAL DOWNLOAD SUBSCRIPTION \$360

Schools only\*

12 digital titles/year

Digital Editions supplied via download

## E-UPGRADE \$120

Schools only\* – only eligible with a current Print Subscription

Bundled upgrade to Digital Editions; supplied via download

12 digital titles (must match current year print volumes)

\* Only available to schools due to digital licence conditions.

## DIGITAL EDITIONS FOR SCHOOLS\*

HAS YOUR SCHOOL ADDED DIGITAL EDITIONS TO ITS ISSUES IN SOCIETY COLLECTION YET?

DIGITAL EDITIONS are interactive PDFs, self-managed by school users.

Only available from The Spinney Press, from Volume 320 onwards.

**Suitable for:** School libraries, teachers, students.

**Format/software:** Interactive PDF using Adobe Reader 7.0+ (Mac, PC, tablets, interactive whiteboards, data projectors).

**Delivery:** Initial download via our website using your account log-in (notified by email).

\* *Note: Digital Editions order history is now stored in your online account for retrieval.*

**Flexible digital licence included:** Unlimited copying, printing; you manage the PDF files on your own password-secure network (this includes your school library or learning management system); you are also free to make the PDFs remotely downloadable to students at home from your own network.\*

**Affordable pricing:** Only an extra \$7.50 each when packaged in a Print+Digital Subscription direct from The Spinney Press.

\* *Check with your school's in-house IT support staff about how to securely manage Digital Editions on your network's library or learning management system using your own password access permissions.*

## PRINT + DIGITAL = BEST OF BOTH BOOK FORMATS

Students and staff can browse the *print* books in their school library AND download their own *digital* copies in class or at home. Contact The Spinney Press to find out how, or visit our website for full details.

**Bundle and save**  
Only \$7.50 extra per ebook packaged in a Print+Digital Subscription

## EBOOKS FOR LIBRARY LENDING

**ATTENTION: PUBLIC LIBRARIES, TAFE COLLEGES, UNIVERSITIES**

Do you need your ebooks to be on a secure library lending platform?

You can source Issues in Society titles (from Volume 320 to the latest releases) directly through these ebook library lending platform partners:

- ProQuest Ebook Central
- EBSCO eBooks
- OverDrive
- Wheelers ePlatform

For more information, visit:

<https://spinneypress.com.au/how-to-order/>

*Note: Ebooks from library platform partners cannot be bundled with print editions.*

# LATEST NEWS

## NEW RELEASES

The latest July releases – and forthcoming January titles – are a dynamic mix of updated topics and fascinating new areas of focus, reflecting the evolving issues in our rapidly changing society.

We are always keen to respond to readers' topic ideas with new book titles where possible, and are thrilled to introduce these totally new topics to the series: food insecurity and waste, media literacy, artificial intelligence, and activism and protest.

The Issues in Society collection remains as revealing and relevant as ever. Whether it is curating for content gaps in your curriculum, engaging readers with interesting issues, or assisting with assignments, Issues in Society is your essential library resource.

## NEWSLETTERS – JOIN OUR EMAIL LIST

Keep up to date with the issues! We only mail out print catalogues like this one biannually, along with our 6 new book releases, in January and July.

Join our *quarterly newsletter* email list to receive the latest news and special offers.

## NEW WEBSITE LAUNCHED

The Spinney Press has recently launched its new website. Features include a streamlined shopping cart, enhanced security, improved customer account log-in, and more user-friendly ebook delivery functionality.

Digital Editions customers will be pleased to find a stored history of their ebook files for re-downloading if required – no more expired email download links.

Greater control and convenience over your Issues in Society collection is only a few clicks away!

For detailed descriptions of the new July releases and forthcoming January titles, visit our website at [www.spinneypress.com.au](http://www.spinneypress.com.au)

## SUBSCRIPTION RENEWALS

Subscribe to a current 2019 annual Issues in Society subscription direct with The Spinney Press (all 12 of this year's titles are now available), or renew for next year (*prices unchanged*).

Note: 2020 subscription renewal invoices are sent out to all *existing subscribers* at the end of July with the new releases.

Shop Subscriptions How to Order News About Contact

## TOPICAL TITLES, REGULAR RELEASES

Six new titles are published twice a year every January and July. Are the latest *Issues in Society* titles in your collection?

- Great value
- Current issues
- Australian content
- Cross-curricular topics
- Worksheets and activities
- Topics updated every 5+ years

## TRUSTED CONTENT

Every issue features current content compiled from a wide variety of trusted, expert sources:

- Fact sheet information
- Magazine and journal extracts
- Lobby group and NGO literature
- Newspaper reports and features
- Opinion pieces and commentary
- Government reports and statistics
- Survey findings, tables, graphs
- Fast facts, glossary, web links
- Cartoons, illustrations, diagrams, photos
- Worksheets, activities
